Dear Dr. Lisanti;

I very much enjoyed meeting you last Friday. I feel that you could be a helpful friend with good advice about both research directions and career planning, regardless of my future grant status with the Council. I do need to start working on a new grant application. I believe you said that you have changed the format since we last applied; I would appreciate your sending me an application form in the mail. I look forward to hearing from you.

Best Wishes,

Bill
